About Me

Frontend Developer with knowledge of React.js, Next.js, and modern JavaScript, skilled in building responsive web applications and creating user-friendly interfaces. Familiar with Figma and basic UI design principles, with an interest in recreating designs and improving visual layouts. Eager to learn and grow in both frontend development and UI design.

Education

B.Tech Information technology & Engineering, P. P. Savani University 2023 – 2026 | Kosamba, Surat

11th-12th Science (PCM), P. P. Savani Vidhyalay 2021 – 2023 | Surat

Skills

Core Technologies

Computer Networks & Internet Protocol, NPTEL - SWAYAM 2026

Strategic Sales Management, NPTEL - SWAYAM 2026

Software Engineering, NPTEL - SWAYAM 2025

Engineering Maintainable Android Apps, COURSERA 2025

Projects

NextHire: 06/2026 – 10/2026
Develop a centralized interview management platform. Simplify recruitment workflow for HR managers. Allow candidates to apply for jobs and track application status.
Proposed methodology : React.js,TailwindCSS, MUI Components, Dummy JSON, Local Storage

TaskFlow: 08/2026
Developed a project management platform using Next.js, React, and reusable components, featuring an intuitive dashboard for organizing projects and managing tasks. Implemented application routing, Context API for state management, and mock JSON data to structure project information and support an organized task management workflow.
Proposed Methodology: Next.js, React.js, Tailwind CSS, Context API, Mock JSON Data, Local Storage
